6 REASONS TO VISIT BASECAMP WILDERNESS

01. PRIME LOCATION

Located deep inside the tranquil Saddle Valley in the Mara Naboisho Conservancy, Basecamp Wilderness offers ultimate seclusion and stunning sunrises, plus exceptional views of the night skies thanks to the total absence of light pollution. The area is renowned for lion sightings, while grazing antelope pass through the camp and are seen in abundance.

02. THE MARA OF YOUR DREAMS

Surrounded by fifty thousand acres of pristine, untouched wilderness, Basecamp Wilderness has the most classic Masai Mara setting. It's the ideal way to get closer to Nature, and to indulge your sense of adventure.

03. EXCLUSIVE EXPERIENCES

Enjoy exclusive wildlife viewing when on game drives, with only a limited number of vehicles allowed in the conservancy at any one time. You can also experience the thrill of a night game drive in search of elusive nocturnal creatures – the Mara is a very different world after dark.

04. THE OLD AND THE NEW

Basecamp Wilderness channels the authentic spirit and design of traditional East African tented safari camps. The camp combines the best of contemporary creature comforts with a genuine sense of yesteryear for a refreshing twist on the safari experience. Few experiences can beat sipping your first coffee of the day whilst gazing out over the endless savannah from your private deck, as the sun rises over the plains.

05. POSITIVE IMPACTS

We provide consistent support to over 500 families in the area through funds paid in the form of land-lease fees, employment and sustainability projects that are helping to improve the quality of life for many families in the Naboisho community.

06. PRESERVING A KEY ECOSYSTEM

Tourism directly supports conservation through daily 'park' fees – this revenue is the main source of commercial income for the community, used not only to run the conservancy but to provide members with support in areas like health and education. It also provides them with a powerful financial incentive to keep community land undeveloped and in its natural state dedicated exclusively to tourism activity, ensuring the wildlife can traverse freely and safely throughout.
